

# ICSI 518 Software Engineering – Project Milestone 1

## Project Proposal

**Objective:** Each team is required to meet this milestone by submitting their project proposal.

**Requirements:**

The project proposal should include the following items:

- Team Members: a list of all the team members
- Project Title
- Project Description: Briefly describe the goals that this project seeks to achieve.
- Project Requirements
  - Briefly describe the purpose of the project. Broadly, what features would the project include? Alternatively, what would you design and build?
- Technology Stack
  - Your initial plan on the set of technologies/frameworks you plan to use.

**Submission Instructions:**

Each team will prepare a report containing all the items listed above. The report file names must follow this naming convention:

- TeamXX- Milestone 1- Report

For this milestone, one of the team members is required to submit their report (in PDF form) on Brightspace.
